

## EXCLUSIVE NIGHTCLUB SAFETY SURVEY

Inside Edition surveyed 210 young women on their way into or out of some of the trendiest nightclubs in New York City. Here are the results:

- \* **56%** said they had consumed alcohol at a bar or club to the point where they didn't remember parts of the evening.
- \* **15%** thought they may have been unknowingly drugged by someone at a bar or club.
- \* **45%** said they know someone who believes they had been drugged at a bar or club.
- \* **42%** said they have felt threatened by men inside or outside of a bar or club.
- \* **42%** said they'd been offered drugs inside or outside a bar or nightclub?
- \* **13%** said they have woken up somewhere and not known how they got there after a night of drinking in a bar or club.
- \* **38%** said they have done something at a club or bar they believed put their safety at risk.
