Firefighters responded to an abandoned structure fire on Huntington St.

Upon arrival, firefighters were met with a fully engulfed house fire. A fast attack was initiated while simultaneously conducting a primary search.

During this search, they discovered a male victim inside the abandoned structure, tragically found deceased in the front room behind a door.

Firefighters worked diligently to swiftly bring the fire under control. Unfortunately, one person succumbed to their injuries. Additionally, during the fireground operations, two of our firefighters sustained burns, one to the forearm and the other to the legs.

The investigation into the cause of this heartbreaking incident is still ongoing.

Our hearts go out to the affected families during this difficult time.
